

Community Cooks mobilizes individuals, businesses, civic, educational and faith-based groups to provide home-cooked food for vulnerable populations seeking assistance from human service agencies.

We envision communities where neighbors connect with neighbors by sharing nourishment and thereby contribute to a more compassionate world.

Our Visionaries Circle recognizes an ever-growing core group of community members whose long-term financial investment in Community Cooks helps sustain our organization. Their multi-year, annual gifts, ranging from \$2,500 to \$20,000 and more, provide us with the ability to grow strategically, think creatively, and plan for the future.

VISIONARIES CIRCLE FUNDS ENABLE US TO:

- **Hire and retain a skilled and dedicated staff** to direct programs, craft strategy and cultivate the meaningful, lasting relationships that make Community Cooks unique.
- **Invest in resources and tools** such as database technology to coordinate thousands of meals each month and the proper equipment for a food drop-off room where we can safely store the dishes our volunteers prepare.
- **Build capacity:** Long-term financial commitments free up the staff and Board of Community Cooks, allowing them additional time to focus more deeply on our mission and expand Community Cooks' reach so we can nourish more neighbors in need.
- **Plan thoughtfully:** Multi-year pledges provide us with the invaluable financial stability we need to plan ambitiously for the future and be the most effective organization we can be.
